

Looking for some inspiration?

Here are some ideas!

Celebrate Earth Week with an Earth related project!

- Does the type of liquid given to a plant affect its growth?
- Which stays fresher longer: organic or non-organic fruit?
- Can you design a sculpture from all recycled materials?
- In what type of lighting does a plant grow best?
- What effect does watering have on how fast a plant grows from a seed?
- What type of ground layers limit erosion most: sand, gravel, or soil?
- What types of flowers attract the highest number of butterflies?
- Which uses more water: a shower or a bath?
- Does music have an effect on plant growth?
- What type of grass seed grows the fastest?
- Does recycled paper decompose more quickly than non-recycled paper?
- How much trash do you keep out of a landfill by recycling paper and plastics?

Or try other areas of investigation!

- How does the temperature of a tennis ball affect the height of its bounce?
- How does the air pressure of a soccer ball affect how far it travels when kicked?
- How does the length of time that a soda bottle is open affect its fizziness?
- How does the temperature of water affect the time it takes to freeze into ice cubes?
- How will adding different flavors of Kool-Aid to water affect the water's boiling point?
- Which brand of popcorn leaves the fewest unpopped kernels?
- Where is the best place to store home baked cookies to keep them fresh longest?
- Which type of bread turns moldy first: store bought or bakery bread?
- Which frozen dessert melts the slowest: ice cream, frozen yogurt, or sorbet?
- Which type of soap removes more grease: dish soap, hand soap, or shampoo?
- Which type of fruit is more acidic: lemons, oranges, or watermelon?
- Does a no name stain remover work just as well as a brand name?
- How does the weight of a paper airplane affect its ability to fly?
- How can you speed up the ripening of tomatoes?
- Do "triple roll" toilet paper rolls really last three times as long as regular rolls?
- How does temperature affect the growth of mold?
- Which brand of potato chips has the least grease?
- Which type of cup will keep a hot drink warm longer: paper, plastic, Styrofoam, or glass?
- Which is better at cleaning mold and mildew: vinegar or commercial cleaning agents?
- Does listening to music while studying affect your performance on a memory test?
- Do mood rings accurately predict a person's emotions?
- Do all chocolate candies have the same melting point?
- Does the type of liquid in a glass affect the pitch of the note that results when a person rubs the rim of the glass?
- Can people use their sense of hearing alone to tell apart a penny, nickel, dime, and quarter?
- How does increasing the height of a ramp affect how far a ball rolls down the ramp?
- Can blindfolded people tell the difference between bottled water and tap water?
- Do objects float better in freshwater or in salt water?
- How does a person's age affect reaction time?
- How often can people correctly determine if a person is left handed or right handed just by looking at the person's handwriting?
- What melts ice the fastest: sand, cat litter, or mineral rock salt?
- Does bread stay fresher longer when it is kept in the refrigerator or on the counter?
- Do bigger lemons have more seeds than smaller ones?
- Which type of bread toasts fastest?
